SERIE 600

GENERAL FEATURES

A line of compact cooking appliances, designed for people who do not want to give up on high performance, even in small spaces. Made of AISI 304 18/10 stainless steel, elegantly finished with Scotch Brite satin finish, it has rounded edges and capacious recessed areas; it is 600/650 mm deep and has a modular width of 400/600/700/800/1000 mm; the series comes complete with open base supports, with cupboards or refrigerated bases. The appliances can be easily put together to build a unit, that is compact, without any gaps thanks to a covering profile that guarantees protection against leaks and therefore excellent hygiene. High flues, ergonomic knobs mounted on a sloped control panel for better visibility, make this range easy to use from the very first time. All models are CE-approved.

TECHNICAL DETAILS

CONTACT GRILL L400

The Contact grill cooker is fitted with a set of heating elements with an oval section for direct cooking made with AISI 304 designed for food use. GN 1/1 tray with humidifier function and removable fat tray for cleaning purposes. Temperature controlled with energy regulating device. The set of heating elements is installed on a tilt support and held into place in either their working or cleaning position with a locking pin. The cooking surface is cleaned by means of pyrolysis with the support of a rake specially designed to fit with the design of the heating elements.
