GENERAL FEATURES

- AISI 304 stainless-steel bases and worktops, Scotch-Brite finish
- Depth of 900 mm for high power and performance
- Catalogue offers more than 350 standard models
- Worktop, base cabinet, base cabinet with doors and oven versions
- 20/10 worktop thickness
- Twin-piece knobs prevent infiltration of dirt and have an IPX5 water ingress protection rating
- Gas ranges having burners with various configurations and power ratings: 3.5 kW - 5.7 kW, 7 kW and 10 kW. Double-ring burners for 7 and 10 kW models
- Wide range of accessories

The knobs offer optimum grip and help the chef to have the setting controls right under his eyes. Special attention has also been paid to the knob bezel that has been expertly designed to avoid penetration of liquids and/or dirt. Thanks to the IPX5 water jet ingress protection rating, awarded after passing specific tests, knobs and knob bezels can be washed at the end of the working day without affecting performance or safety.

TECHNICAL DETAILS

ELECTRIC

1 BASIN ELECTRIC PASTA-COOKER 40 LT - WITH SET OF 3 BASKET GN1/3

- Large capacity (42 litres) alloy AISI 316 stainless steel cooking tank with excellent corrosion resistance even at high temperatures. They are moulded with internal rounded corners for maximum hygiene and cleaning, and are equipped with wide foam expansion areas and a drain device for residue starch;
- Safety thermostat in tub to avoid dry functioning;
- Stainless steel armoured heating elements in tub;
- Re-arm circuit breaker of heating elements unit;
- Multi-position power regulator, independent for each tub

PRODUCT'S RANGE PLUS

Equipment certified for low voltage
directive 2014/35 / EU according to
the international CB scheme.

Thanks to the IPX5 water jet ingress
protection rating, awarded after
passing specific tests, knobs and
knob bezels can be washed at the
end of the working day without
affecting performance or safety.

The front bar is a comfortable place
for the chef to lean on; it means you
will remain at a safe distance from
the worktop and therefore protects
from accidentally knocking against
both items lying on the worktop
and the knobs.

Manual water filling

Safety pressure switch prevents
heating if there is no water in the
basin.

Internal compartment not
accessible for total safety in use,
closed with a door for aesthetic
alignment.

Safety pressure switch to prevent
the activation of heating without
water in tank.

In the electrical version, the heating
element can be rotated by more
than 90°.
